Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) Responsive to communication(s) filed on 25 August 2005.
- 2a) This action is **FINAL**. 2b) This action is non-final.
- 3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Drawings

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the expulsion window must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either “Replacement Sheet” or “New Sheet” pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

2. The disclosure is objected to because of the following informalities: the brief description of the drawings lists Figure 3 as “Figure e”.

Appropriate correction is required.

Claim Objections

3. The claims are objected to because of the following informalities: claim 1, line 6, for example, recitations of “it”, “its”, etc. should be replaced with the element being referenced for clarity; claim 3, lines 5 & 6, “a score” and “the new score value” should be reworded to be in agreement, i.e., --a score value-- and --a new score value--; further, it is noted that “the” before “score value” should be --a-- for proper antecedent basis in the claim and that the remainder of the claims should be revisited and revised as also pertinent; claim 8, line 3, “an/or” should be rewritten as --and/or--; claim 10, line 3, “similar” should either be removed or replaced with a positive recitation of which type of screen it is (see MPEP § 2173.05(d) regarding “or the like” terminology); claim 12, line 3, “21” should be in parentheses, such as, --(21)--; claim 13, line 3, “it is possible to see” should be removed and --is visible therebetween-- inserted after “the barrel” in line 4; and, claim 14, line 4, “the” before “consumption” should be --a-- and “(1!)” should be --(11)--. Appropriate correction is required.

4. Note that in the above listing *not* all improper recitations of “the” before initially introduced features has been brought to Applicant’s attention.

Allowable Subject Matter

5. Claims 1 – 15 are allowed.

6. The following is a statement of reasons for the indication of allowable subject matter: the prior art of record neither discloses nor fairly teaches the recited limitations of the claimed invention including, but not limited to: a counting device comprising a first emission means emitting a continuous electromagnetic signal that is interrupted by a shell casing being ejected through an ejection port.

7. This statement is not intended to necessarily state all the reasons for allowance or all the details why the claims are allowed and has not been written to specifically or impliedly state that all the reasons for allowance are set forth (MPEP 1302.14).

Conclusion

8. This application is in condition for allowance except for the formal matters as set forth above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
